

Isle of Skye Renewables Co-operative Grant Application Form

The Isle of Skye Renewables Co-operative was established in 2007 for the purpose of owning a share in the Ben Aketil wind farm located near Dunvegan.

There are three main objectives of the Co-operative...

- The development, management, generation, transmission and supply of electricity from renewable energy sources;
- The conservation of energy through energy efficiency including energy efficient products and other activities;
- The promotion of awareness of environmental and related issues and support for educational initiatives related to renewable energy.

In support of the above objectives the Co-operative has allocated a proportion of the income it generates for grant funding. Grants are available for local community projects which can demonstrate they help the Co-operative further its objectives.

All applicants for grants are required to complete this short application form to allow the applicant to demonstrate the project being supported allows the Co-operative to further its objectives.

Question	Answer	
Name of applicant:		
Name of applying organisation, if not an individual:		
Role of applicant in relation to the applying organisation:		
Date of application:		
Name or reference of project to which the application refers:
